

## Tag 11 – Exeter

Our day started like every weekday at school. We talked about the positive and negative aspects of social media, which was very interesting since we learned quite a lot about it. After that we went to Exeter by coach where Mr Adam told us something about the Exeter Cathedral, when and how it was built. Afterwards Mr Adam gave us a guided tour for those who wanted to know more about it. The others could have some freetime. We learned very much at the tour. It was very interesting to listen to our guide. When the tour had ended we had about two more hours to go shopping or eat something. At five o'clock we went back to our host family, had dinner and went to bed.
